Trilithic Adds Quick Response Team

Indianapolis, Indiana (Wednesday, February 15, 2006), In response to the high demand for prototype testing, Trilithic, Inc. has formed the Quick Response Team™ to provide exceptional delivery on custom filters and RF and Microwave components.

This team of senior Trilithic engineers and manufacturing associates can in most situations provide a limited quantity (10 pcs or less) of new designs in a two-week delivery window. This is the ideal solution for prototype systems and/or proof of concept testing.

"This special team was formed to increase efficiencies with customers." Says Mark Burton, Director of Sales. "It is important to us to be able to provide the best services and products to our customers as quickly as possible, as to relieve some of the stress of their projects."

ABOUT TRILITHIC: Trilithic, Inc. is an industry leader providing telecommunications solutions for major Broadband and RF & Microwave markets around the world. Comprised of three major divisions: Broadband Instruments & Systems offers test, analysis and quality management solutions for the major cable television systems around the world. The **RF & Microwave Components Division** provides various components and custom subsystems for companies specializing in cellular, military and other wireless applications. The E.A.S. Division is a leading supplier of government-mandated Emergency Alert Systems used by HFC service providers in the United States.

Trilithic has continuously expanded its manufacturing capabilities to accommodate the greater demand for its products, both through streamlining design and development and automating manufacturing and test procedures. Trilithic provides a broad product base of over 1500 measurement products and communications components to thousands of customers around the world. The company's state-of-the-art 120,000 Square Foot worldwide headquarters is located in Indianapolis Indiana.

As an **ISO 9001:2000 certified** company with over 40 years of collective expertise in engineering and custom assembly, Trilithic is dedicated to providing quality products, services and communications solutions that meet and exceed their customers' expectations
